

The Case of the Missing Diamond Necklace!

A long time ago, like about 2004 there was a detective named James. They called him Detective James. There was a mall that had a beautiful and shiny necklace. The cost of the necklace was \$100,000! Nobody had \$100,000! Everyone stared at it for one hour! One day the necklace was stolen. The police hired Detective James. Detective James had a brother who went on vacation. He had a son named Marty also. He took Marty with him. They went in the car, tied their seatbelts and then turned on the car. They drove to the mall which was near Terragar Blvd. They got out of the car and rushed to the police. The police took them inside and they all searched for a clue. Marty found a clue near the case where the diamond necklace was. It said clue #1: Go to Niagara Falls. He rushed to his Dad and yelled, "Dad, Dad, Dad, I found a clue and it says **CLUE #1: "GO TO NIAGARA FALLS."**

They all drove to Niagara Falls. Near the waterfall Detective James found another clue and it said **CLUE #2: "IN THE WATER"**. In the water they saw a paper. They ran down the stairs, took some life-jackets and jumped on a boat. They picked it up and it said **CLUE #3: GO TO TACO BELL AND GO IN THE BOY'S WASHROOM**. They knew it was a red herring because it was a lined paper and the other clues weren't. They had already found clue #2 and all the other clues had something to do with Niagara Falls and this one didn't. They put that paper in the red herring pocket.

They saw another clue and it said **CLUE#4: IN THE CAVE UNDERWATER.** They rowed the boat where the clue told them to. They took off their jackets and jumped in the water. They looked around but couldn't find the cave. Detective James had an electronic watch that told him where to go to find the criminals. Detective James saw his watch had a compass pointing straight ahead.

Detective James followed the arrow until he found the cave. He went inside and saw **CLUE # 5: STICKING TO THE WALL.** He took it off the wall. It said **CLUE #6: NEAR THE DOOR, IN THE CAVE.** He saw a door and opened it. A letter was flying because of the wind (gas). It said **CLUE #7: IN THE STORAGE ROOM.** He saw a door. On the door was written **STORAGE ROOM.** He opened the door and it made a screechy noise screech. He found a clue on the floor. It said **CLUE#8: DIG IN THE GROUND.**

Detective James found a shovel next to the clue. He dug till he found the diamond necklace. It was still shiny and beautiful. He dug a little more after he put the diamond necklace in his pocket. He got all muddy because he was digging. After a while he found his brother in a cave underground. He phoned the police and told them to bring his son Marty too. They picked up his brother Jack and they put handcuffs on Jack. He was finally happy that the criminal was going to jail. Jack stayed in jail for a very long time.

The End
