Many voices, united in a common goal can make a difference.

The gifted program means many things to many people.

The School Board needs to know how you feel and that your concerns
and our children's concerns must be addressed.

Whether your main concern is funding for gifted students, proper identification
of gifted students, access to programming options like congregated classes,
subject or grade acceleration, or closing of gifted classes NOW though gifted
review is still taking place, your voice is important.

Many whispers can roll like thunder.

Write a letter.

Make a difference.
